Building a Path Forward: UWM’s 2022-2024 Goals
COMMUNITY STRONG

For the past 98 years, United Way of the Midlands has used our community-wide perspective to identify local needs that are going unseen or unmet — and we’ve partnered with businesses, nonprofits, government organizations and people like YOU to tackle them.

Whether we’re helping someone through everyday struggles or serving our community during recessions, natural disasters or the current pandemic, we are committed to bringing together community partners to help those in need. Currently, we invest donor dollars into more than 150 local nonprofit programs that form a circle of support around our community. These programs address pressing social and economic disparities and provide the essentials families need to thrive — such as healthy food, safe and stable housing and physical and mental health services. We fund out-of-school time and academic programs to ensure local children come to school prepared to learn. And we support the development of essential interpersonal, academic and technical skills so people can gain and sustain a living wage job.

United Way works to foster an integrated and coordinated circle of support to help individuals and families attain their full potential.

- Healthy meals
- Domestic violence services
- Physical and mental health services, including medical research
- Safe and stable housing
- 211 Helpline
- Early childhood education programs
- Mentoring
- Out-of-school time programs
- Asset development
- Job training
- Upskilling and reskilling through workforce programs
- Personal finance classes
- Post-secondary education support
COMMUNITY CHALLENGES:

Knowing the challenges our community is facing right now, it’s more important than ever to address social and economic disparities and ensure community members can access the many things they need to grow, thrive and provide for themselves and their families.

Current data highlights the ways in which the COVID-19 pandemic has widened social and economic gaps. The road to recovery will be longer and harder for some, as our economy will recover at different rates and magnitudes for different populations.

70%
With 70% of households living in poverty having at least one person working, the Greater
Council Bluffs metro has the highest percentage of working poor in the country.

50,000+
The metro has a lack of affordable housing, with more than 50,000 people paying over 30% of their income on rent.

1 in 4
About 1 in 4 households in the metro have three or more risk factors that delay, prevent or impact recovery.

40%
40% of Americans have less than $2500 in savings.

26%
Eating food insecurity increased 15% in Douglas and Sarpy County, and 29% in Polk/Cherokee County between 2019 and 2020 and we still have not returned to normal demand.

88th
Nationally, homeownership is approaching a low not seen since the 1950s. And while our metro's homeownership rates are similar to other areas overall, we rank 88th for homeownership among African Americans.

35%
A rising share of Black households make less than $50,000, 35% went without some medical care because of cost and African Americans and Hispanics are twice as likely not to receive care because of cost.

1/3
Nearly one-third of high school students attending classes in a remote environment are falling two or more classes.

60%
60% of teachers from low-income families regularly bring their own classroom supplies and technology to class.

41%
About 4 in 10 adults (41%) in the U.S. report symptoms of anxiety or depression related to pandemic experiences in jobs and communities of color were even more likely to report these mental health challenges.

40%
40% of African Americans and 36% of Hispanics lack access to safe and affordable financial services, compared with 12% of Americans overall.

194,000
Nearly 194,000 contacts for 211 Kelley assistance with housing and utilities being the top two areas of need.

UWM’s PERFORMANCE GOALS:

To ensure we are driving impact and change in the most efficient and effective way possible, UWM has established new goals. By strengthening current partnerships and forging new ones, we will provide approximately $8 million services over the 2022 to 2024 investment period. And because we are committed to holding ourselves and our partner agencies accountable, we will collect program outcomes, measure impact and share the results with you.

4 million meals by investing in food distribution, meal services, pantries, backpack programs and more.

500,000 health services by investing in high quality physical, mental and social services for different ages.

500,000 shelter nights and other housing services by investing in safe shelter, transitional housing, rent and utility assistance, supportive referrals and case management.

3 million services to remove barriers and create opportunity by facilitating access to resources and training to support job placement, academic attainment, financial empowerment and other essential skills.
