57,000 HOURS

One Incredible Community

Last year, volunteers gave more than 57,000 hours of their time through United Way. That's the equivalent of nearly \$2M in community support—proof that every hour you give adds up to make a real difference.

Strong communities rely on a robust base of committed volunteers. One of the primary drivers in my decision to retire was to have more time to give back. Being part of Volunteers United allows me to support the important work of United Way of the Midlands and join others in doing good across the metro.
